(1 row, 1 ms)

Edit

The screenshot shows a web browser window with the H2 Console interface. The URL is `mutant-api-3wh6.onrender.com/h2-console/login.do?jsessionid=a00a2c251facb48741eb56a39bb9b73b`. The top navigation bar includes tabs for 'mutant-api · Web Service · Re' and 'H2 Console'. Below the address bar are various configuration options like 'Auto commit: On', 'Max rows: 1000', and 'SQL statement:' input fields. A sidebar on the left lists database schemas: 'DNA\_RECORDS', 'INFORMATION\_SCHEMA', and 'Users'. The main content area displays the results of a SQL query: 'SELECT \* FROM DNA\_RECORDS;'. The results are presented in a table with columns 'ID', 'DNA', 'HASH', and 'IS\_MUTANT'. There is one row of data with ID 1, DNA sequence 'ATGCCA,CAGTGC,TTATGT,AGAAGG,CCCTTA,TCACTG', HASH '06869d462660e6feec03764b47a10fc5d1e681a5ecbcdft2633150326bd10fe0', and IS\_MUTANT set to FALSE. The status message '(1 row, 1 ms)' is shown below the table. At the bottom of the page, there's a toolbar with icons for file operations and a system tray with date and time information.
